

**The Pantodontidae (Teleostei, Osteoglossomorpha) from the marine Cenomanian (Upper Cretaceous) of Lebanon. 5°. Erratum**

**Les Pantodontidae (Teleostei, Osteoglossomorpha) du Cénomanien marin (Crétacé supérieur) du Liban. 5°. Erratum**

Louis TAVERNE <sup>1</sup>

Because of an inversion of photos, the specimen presented in TAVERNE (2022: fig. 1) is not the holotype of *Capassopiscis pankowskii* but the one of another Cretaceous pantodontid fish from Lebanon not yet described and published. The true holotype of *Capassopiscis pankowskii* is figured hereafter (Fig. 1).

**Figure 1:** *Capassopiscis pankowskii*. Holotype IRSNB P 10.272 (marine Cenomanian, Haqel, Lebanon). Total length: 72 mm.
